

SEASONAL SUPERSTAR - I'M IN SEASON:

FUN FACTS!

AT MY BEST...SPRING - AUTUMN

Depending on the time of planting, cauliflowers are harvested in Britain almost all year round. They take between 3-6 months to grow.

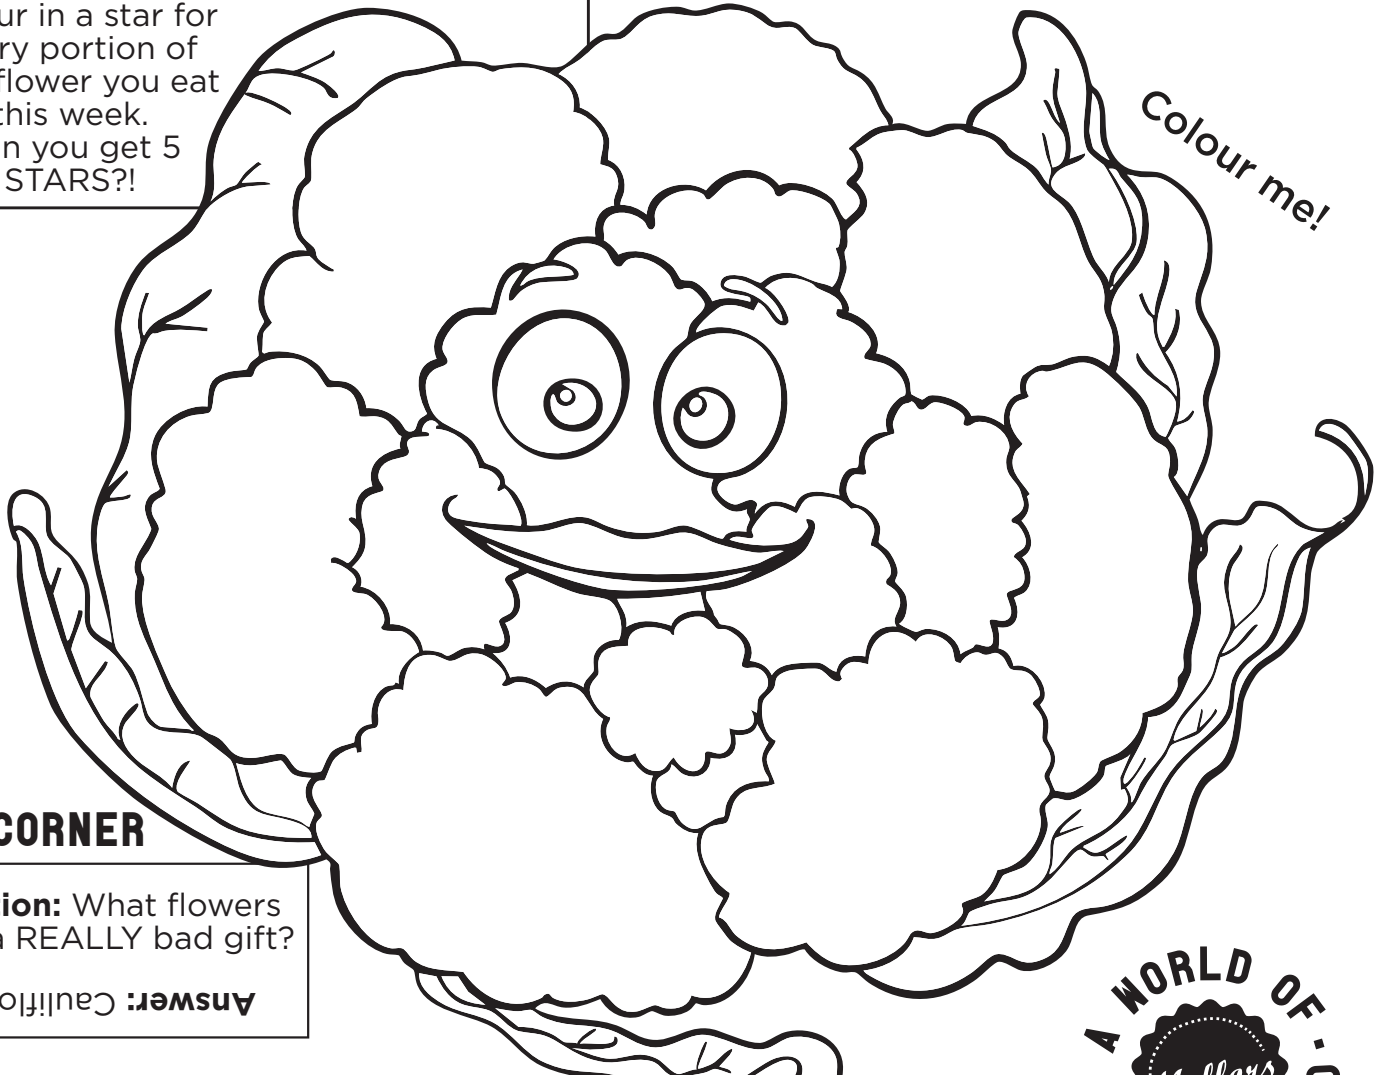

Colour in a star for every portion of cauliflower you eat this week. Can you get 5 STARS?!

Cauliflowers are white because its thick leaves surround it while growing, protecting it from the sun!

Cauliflowers & maths? The spiral patterns that a cauliflower forms are known as Fractals.

JOKE CORNER

Question: What flowers make a REALLY bad gift?

Answer: Cauliflowers!

CAULI- FLOWER

We'd love to see your finished artwork!
